- **UI/UX & Design Tools**: Figma, Adobe XD, Responsive Web Design
- **Version Control & Deployment**: Git, GitHub, npm
- **Testing & Debugging**: Chrome DevTools, Firefox Developer Tools
- **Back-End Basics**: Node.js, Express.js

Work Experience

Genetic Web Technologies – Front-End Web Developer

November 2023 – November 2024

- Developed and implemented responsive, high-performance web applications utilizing HTML5, CSS3, JavaScript, and React.js, resulting in a 20% improvement in page load times.
- Optimized website performance for search engines (SEO) and enhanced page speed, ensuring W3C compliance and web accessibility standards, leading to a 15% increase in user engagement.
- Designed and built interactive UI components with Bootstrap, Tailwind CSS, and Figma, improving user engagement and contributing to a 10% reduction in bounce rate.
- Debugged, maintained, and refactored existing codebases, ensuring cross-browser compatibility, responsive layouts, and adherence to coding best practices.

Projects

Code-Hive – Frontend Code Editor App

- Developed a real-time code editor for HTML, CSS, and JavaScript with an intuitive user interface.
- Integrated a dynamic preview feature for instant visualization of changes, enhancing user productivity.
- Tools Used: React.js, JavaScript, HTML, CSS, CodeMirror.
- Live Demo

Vortex – Demo Landing Page

- Designed a professional landing page optimized for product showcases and conversions.
- Implemented AOS animations and lazy loading for enhanced user engagement and performance optimization.
- Tools Used: Bootstrap, JavaScript, CSS, AOS.
- Live Demo

Personal Portfolio

- Built a sleek, interactive personal portfolio using React.js.
- Showcased web development expertise, projects, and certifications, demonstrating strong UI/UX skills.
- Live Demo
